The 3 Ps

what's inside

SUSTAINABLY SOURCED MARINE COLLAGEN

Marine collagen is closer to your body's natural collagen than bovine or vegan collagen, so your body already knows how to put it to work. Plus, it's bioactive and sustainably sourced to help protect our planet—only the best for you and Mother Earth!

HYALURONIC ACID

Made naturally by our bodies, hyaluronic acid acts like a sponge to help maintain moisture for skin that looks plumper, softer, and more supple.

ACEROLA CHERRY-DERIVED VITAMIN C

An antioxidant that helps give skin a brighter, more glowing appearance.

Contains fish

Formulated without soy, gluten, GMOs, dairy, artificial colors, and artificial flavors.

Micro-absorption technology breaks down collagen into potent, easily dissolvable peptides so your body can more easily absorb all the nutritious benefits.
